

Brownstown Hardware – Brownstown

For 100 years, local residents have visited Brownstown Hardware for their hardware needs. Located on Main Street, "right across from the courthouse," it still calls its original brick structure home. Owner Wilbert Wessel, Jr. began work there in 1949 and purchased the business in 1996.

Serving the homeowner's hardware, plumbing, electrical and garden needs, Brownstone Hardware counters the competition of large chain stores with individualized attention and dependable familiarity the "big box" stores just can't match.
